The Most Beautiful Roof In The World: Exploring The Rainforest Canopy

Synopsis

Journey along with Dr. Meg Lowman, a scientist who, with the help of slings, suspended walkways, and mountain-climbing equipment, has managed to ascend into one of our planet's least accessible and most fascinating ecosystems--the rain-forest canopy. Fresh in outlook and intriguing in details, this book will strengthen any library collection on the rainforest. --Booklist

Customer Reviews

My six-year-old daughter loves exploring nature and loved reading this book about CanopyMeg and how she started with a similar interest in nature at a young age and went on to become a world-renowned tree canopy biologist.

Nice Book. Love the pictures!

I bought this book for my 10 year old son who is reading it for school. While the photography is lovely, he found it a bit boring.

love it
