Customer Reviews

The items came quickly, were reasonably priced, and very good quality. So much better than a bunch of loose papers in a drawer. This keeps all my important codes, licenses, and other numerical information in one convenient, neat, book. I'm a very happy buyer.

A God-send!! Now all of my computer sites, logins, passwords and security question answers are in one place, along with customer service phone numbers for the companies listed. Before I had to combine regular address book and my computer log-in/password - what a hassle!! Now that they are separate, I have no trouble finding what I am looking for. I even was able to close out some old company charge accounts I haven't used in years because they were all buried with the regular addresses. Now I know what credit cards I have open and closed the ones I don't need/use anymore.

There is bad and good here. A standard cheap paperback glue binding like this should never be used on a log book that needs to endure practical amounts of USE. Also, putting the words "Password Log" outside the cover is unhelpful (from a discretion standpoint) and detracts aesthetically from the pretty cover art. But, the page layout is quite good in terms of organization, fields, and note space--better than many other such books I reviewed. I now know that I would have been happier with a higher-quality A-Z book with unlabeled lined pages. There are a few of those available, though they tend to cost double what this one did.

There are no tabs to easily find your entries by the letters of the alphabet, and the book does not lay flat. Otherwise it's nice. I should have looked at the product closer.

Actually very cute and set up perfectly for all my password needs, was sick of forgetting all those stupid little passwords and user names for the tons of websites and bills and this was a perfect solution!

Love these logs.. have bought three already..

I find this item practical.

Perfect for home use....
