Synopsis

Wander along a winding path with intricate, gorgeous illustrations of natural settings, lovingly represented in this delicately rendered coloring book. From landscapes of weeping willows in the breeze to patterns of bees and blossoms, all are waiting for your creative touch. Words to color—"including quotes, like Emily Dickinson’s "Bring me a sunset in a cup"—are set into beautiful, delicate designs that will inspire you as you create!

Customer Reviews

I found this gem of a book at a local big box store. It is filled with gorgeous flowers, garden scenes and inspiring quotes. I was a little disappointed that it was printed on both sides until I test my coloring medium (more on that later.) The designs have a good amount of detail but not so much that it is intricate or too small to color. I appreciate the high quality of this book and hope to see more coloring books by both this artist and by this publisher (Harper Collins) in the future. The designs are printed on both sides of the heavyweight, non-perforated page. Most of the designs merge into the binding. A few of the designs spread across two pages. In my copy, the alignment of the two-page spreads is excellent. The binding is a hybrid of glued and sewn. The sewn binding is the type that has many stitches rather than just a few. Because of the binding and the way the design merge in (though nothing of note is lost in the binding), I will not be removing pages from this
book. If you wish to do so, you will have to cut them out and you will probably lose some portion of
the design in doing so. I was able to get the book to lay fairly flat by breaking the spine. Only my
alcohol-based markers bled through this paper. I was able to use all of my water-based markers,
India ink artist pens, and gel pens without any bleed through. Gel pens required some extra drying
time but that is common for gel pens on a good grade of paper. My coloring pencils worked
excellently. The soft lead pencils went on thick with full coverage and blended beautifully. The hard
lead pencils worked well and did not leave indents on the back of the page. I was especially pleased
with the way my TomBow brush end markers worked with the paper.
