# Windows 8.1 Handbook: Return Of The Start Button (Quick Guides)

## Synopsis

Learn Windows 8.1 the easy way. Clear concise and to the point... Teach yourself how to navigate and use the most radical redesign of Windows in Microsoft's history. With plenty of screen prints, photographs and illustrations, this guide explores

- Setting up your computer
- Navigating around the windows 8.1 using the start screen
- Windows 8.1's features, menus, charms and utilities
- Transferring your files from your old machine
- Using the desktop and running applications
- Backing up your important data with filehistory
- Antivirus and internet safety
- Downloading & watching videos
- Downloading & listening to music
- Staying in touch friends, family and colleagues using Mail & Calendar
- Getting started with SkyDrive
- Storing, organising and manipulating your photos, putting them into albums or slideshows to show to friends or post on social media
- Maintaining Windows 8.1, optimizing drives, scanning drives for errors and more...

Techniques are illustrated step by step using photography and screen prints throughout, together with concise, easy to follow text from an established expert in the field. Whether you have just bought your first computer, laptop or are a keen computer user who has just upgraded to Windows 8.1, this book will provide you with a firm grasp of the underpinning foundations and equip you with the skills needed to use a computer like an expert.

ISBN-10: 1492921793

ISBN-13: 978-1492921790

Product Dimensions: 7 x 0.2 x 10 inches

Shipping Weight: 8.5 ounces

Average Customer Review: 3.3 out of 5 stars [See all reviews](#) (16 customer reviews)

Best Sellers Rank: #1,660,181 in Books (See Top 100 in Books) #85 in [Books > Computers & Technology > Operating Systems > Windows > Windows Desktop > Windows 8](#) #3836 in [Books > Computers & Technology > Software > Microsoft](#)

## Customer Reviews

This is in my opinion a MUST HAVE BOOK for Windows 8.1 users and below I will give you reasons that you may want to highly consider this book (and I believe that this book will serve you well and

get you up and running fast in Windows 8.1):1) This is a QUICK GUIDE Book that has just what is needed to get going in Windows 8.1 quickly!2) It is well illustrated and it has STEP BY STEP information on how to use the new features found in Windows 8.1.3) This is a very easy to understand book (even for the Windows beginner). And it has excellent and helpful information that even a seasoned Windows user will benefit from!4) THE BEST PART OF THIS BOOK - this section is called: For Diehard Desktop Fans. So many of us (including myself) prefer to use the Desktop that looks like our old friend the Windows 7 desktop. Well good news as this is now possible in Windows 8.1 as the book will show you how to do this so each time you boot your computer, it starts off in the Desktop instead of the Start Screen! This is shown in illustrations and a menu so it just takes a moment to be happily in the Desktop mode when you boot your computer! This section alone sold me on the book, however, every section in this book is helpful.5) Second best part of the book - The Taskbar Section, there you will see in illustrated form how to better understand the Taskbar.6) Why I bought this book: For me, I was looking for a QUICK GUIDE, an easy to follow and not too long of a book and one that gets to just the things about Windows I need to know to get up and running FAST. This book does all of that as it has useful information that I was looking for. Highly recommend this book because this book has exceeded my Windows 8.
