Grade Level: Preschool - 1

## Customer Reviews

When doing a unit on the farm in my preschool class I wanted to show the children what farmers actually do on the farm. This book has clear text, wonderfully clear pictures that show farmers in action. I believe it is important to expose children to non-fiction as well as storybooks and this topic is perfect for some reality! I highly recommend for ages 3 - 6.

This book was perfect for my four-year-old preschool class. Students were interested in the jobs and then we discussed even more types of work that can be done on a farm.

Great for a few pictures. Very few pages to this book. Gives you something to talk about, but really I am sure there are better options out there.

I ordered this book for my kindergarten class. We were doing a unit on farms and the jobs that people do on farms. The kids loved the pictures.

This book is wonderful for teaching urban children about the life of a farmer. The illustrations are photos and well photographed.

This book is ideal for the 4-6 age group of children who are curious about where their food supply comes from and the responsible people who take care of their land, animals, and crops.

Was a big hit with the nieces for their Christmas gift! They especially enjoyed it along with the toy animals I got for them.
