

## Synopsis

Cityblock explores city life in an exciting and unique way, from up in a high-rise building to down in the subway. Divided into three sectionsâ€”things that go, things to see, and things to eatâ€”it features 24 different aspects of city living. As with the other acclaimed books in the series, die-cut icons hint at the larger context on the next spread. Each section opens with a full city scene but gradually focuses in on the small, unique neighborhoods that make the city large and grand. This clever book will attract young readers living in a metropolis as well as those in the countryside with urban life that pops off each page.

## Book Information

Series: Alphablock

Board book: 96 pages

Publisher: Harry N. Abrams; Brdbk edition (September 6, 2016)

## Customer Reviews

So happy for this additional Block book, love the whole series. My son loves it.Creator

Suggestion:-Include additional themes for the block series: Home Block (items in the house, things to do at home, etc.) School Block, etc.

Cityblock is an adorable board book that takes little ones on a exciting adventure as they discover all the city has to offer.Ã¢ÂÂAs the children and their grandpa (I assume that's who it is from the illustrations) venture into the city they take all sorts of modes of transportation like the subway, a

bus, and a ferry. Then they do a little sightseeing and visit a museum, flea market, and a gift shop. Hunger sets in and the group has some tacos, sushi, and ice cream proving the city is full of places to explore. Cityblock is such a fun book and the vibrant illustrations add to the delight. I love how each page offers so much to be discovered and little ones will be captivated by all there is to see. This creative picture book is definitely worth adding to your bookshelf. I highly recommend picking up a copy.

Incredible book - very long and interesting. Lots of detail and perspectives - will keep tot thoroughly entertained. Durable. Short words not too much reading on parents part but very long in a good way. Ages 1+ not 3+! Even a young baby would love this book. It's very fun!

This is an amazing board book, in many ways. First, it includes numerous pages cut along the edges of the illustrations, which is fun. Second, it features simple yet super-cute illustrations throughout. Third, it is really thick - about 2 inches thick for a book that is 5.5 inches by 6.5 inches in size. It puts the Cityblock in City Block. And, fourth, it is a child-appropriate description of all the things that can be done for fun in a large, urban environment. It's a fun book for kids, filled with charming ideas throughout, which I think would help children to see the fun in urban living.
