Beyond Words And Thoughts

Synopsis

Beyond Words and Thoughts is based on classes that Joel Goldsmith gave after he had received the call from within to lift students out of the metaphysical level of consciousness into the mystical. In the book, he explains that in the metaphysical state of awareness, we use the mind to demonstrate health, wealth, and other material things, or try to use God to overcome evil. But when we attain the mystical consciousness, he says, we relax in the Presence of an inner Grace and let It function. We live without words or thoughts, above material law. Beyond Words and Thoughts sets forth the way that leads to this transition to the mystical consciousness. It shows the seeker how to leave the maze and confusion of words and thoughts and enter into the mystical Silence from which all that is proceeds. In that stillness and Silence, we can hear the still small voice and discover the deepest secrets of life. There the earth of problems melts, and the light of Spirit dawns. This is a book for those who want that one great Experience, which externalizes as a fulfilled life.

While this is an important work, what Goldsmith leaves out, starting with the fifth paragraph of chapter one (quoted below), is that his "God-experience" came through the Christian Science treatment given to him one Saturday by a dedicated Christian Science practitioner, whereby Goldsmith was healed not only of a bad cold, but of drinking, smoking and other bad habits; he relates this himself in another of his books. Goldsmith went on to study Christian Science for years until he became a very successful Christian Science practitioner before leaving (forced out by unscrupulous Christian Scientists jealous of his success) to start The Infinite Way. His, initially,

claiming that his first "God-experience" came out of the blue is disingenuous, to put it mildly. He owes a great debt to the many years of consecrated study, to the work, and to the "teaching" (see Goldsmith quote below) of the Discoverer and Founder of Christian Science, Mary Baker Eddy, a true mystic if there ever was one. It was the "teaching", the "principles" and the "laws" explained in "Science and Health with Key to the Scriptures", by Mary Baker Eddy, that brought about his "God-experience", after he pleaded with the Christian Science practitioner to see and treat him because he was so sick (the practitioner usually reserved Saturdays solely for study, which quite impressed Goldsmith). "This Experience brought with it no message, no words, no rules, nor were any principles given: there was just an experience that could not be described. Whereas in one moment I was like every other human being, in the next moment my body was well, and many undesirable human habits were gone. I found that a healing power was present and that I was on the threshold of a whole new life.
