This is a cute little book aimed at the youngest of readers, featuring fun, vibrant, color illustrations with short captions. The message of the book is that doctors make everything better when you get hurt or sick. I know how much I hated going to the doctor when I was a little, and I know it would have taken more than a cute book to make me less anxious about heading off to the clinic without a fight, but The Get Well Soon Book by Kes Gray and Mary McQuillan might have made me feel a little better about my situation. These pages are filled with different animals who have suffered injuries of some sort or another - a mole who burrowed right into a brick wall, a dragon who burned herself with a sneeze, a turtle who got stepped on by an elephant, a hamster who got his whiskers caught in his wheel, etc. None of them look very happy, which is perfectly understandable. After a trip to the doctor, though, they’re all frolicking around in no time, their pain or sickness gone and forgotten. The Get Well Soon Book is a short book, but any child should get a kick out of the wonderful illustrations - and it just might help a sick or injured child feel a little better for awhile.

Get Well Soon Book is absolutely hilarious, sparkling and original, and zany. Any who have bemoaned illness - including adults - will find this a jolly title which has a very simple message: there’s always someone worse off. Harry the hamster gets his whiskers caught in his wheel, Danny the Dalmatian breaks out in stripes, and Delia the Dragon sneezes and catches herself on fire in this very simple yet heartwarming picturebook.
Cute book. The story is very simple though our children enjoyed it.
