Customer Reviews

If I could give it zero stars, I would. I received a bent up brochure about Australia. The pictures are tiny and without color. There is nothing jaw-dropping about this book. Clarification: this is not a book. It's garbage.

Book is black and white with no colored pictures except cover. Information is very general and not what I expected. I paid way to much for a book that had only very general information.

Great for teaching about Australia. Unfortunately, the free books are not available. The sale site should be updated. Disappointed about that.

Very clear ebook about Australia, that is full of information. Recommend you buy this book, read it and write you review.
