## Customer Reviews

Kevin is a little boy who enjoys playing and having fun outside. But one day he trips and falls. He lands on his head and is hurt. His mommy takes him to the hospital to get it checked out. Kevin has to stay in the hospital for a little while. He is a little scared, but soon learns all about staying in the hospital. It isn't as bad as he feared. It ends with the child happy to be going home and feeling better. The book was written to explain the hospital to a young child who might be afraid of what happens upon arrival. The author did a great job of making the visit seem safe and perhaps even a little fun. The pictures almost tell the story on their own and compliment the writing very well. The book is age appropriate, but my six year old son enjoyed the story when I read it to his younger sister. I received this book free of charge from Children's Lit in exchange for my honest review.

No elaborate illustrations. No fancy words. Just colorful drawings and large, easy-to-read text simply told from a child's point of view. This sturdy board book is perfectly sized for small hands. Kevin Goes to the Hospital was the first "On My Way" book we read. It was a big hit! When my 2.5-year-old daughter fell and scraped her knee, I don't know what made her feel better the most:

the hug, the Band-Aid, or the reading of this story. The vocabulary is fairly simple, so it can also be used as an early reader book for your child who is just learning to read. I recommend ALL the books in this series.

I had purchased this book about 4 yrs ago when my then 3 year old was having an operation. It was a good (very simple) way to explain a complicated situation. Although Kevin fell and hurt his head (no operation), it still helped to explain to my 3 yo that Kevin went to the hospital and was OK. He got better and went home. Simple illustrations and text that I still can recite word for word today. It's hard to find preschool books on hospitalizations/operations so this was a good find. I highly recommend it for those 2-4. Probably too simple for kids any older than that.
