History has been taught in a boring way for far too long. A subject as moving and powerful as humanity's past should be inviting, and when it is told well, it is. Susan Wise Bauer succeeds in telling the captivating story of history with her best-selling history series. Parents and young readers have fallen in love with her narrative history, *The Story of the World*, and its accompanying Activity Book. Now teachers and home educators can take advantage of a new and valuable learning tool: the Tests and Answer Key package. Included are 42 tests: one for each chapter of *The Story of the World*. Customer Reviews

I read the first volume without purchasing the test questions. When I bought the second volume I saw the test book and bought it too. I'm glad I did. Sometimes when I read a chapter, the boys might drift off a little. Asking the questions from this test workbook lets me know how well they were listening. We can go over the material again or reread a certain section if necessary. We make the test questions into a game and award 100 points for each correct answer. This lets the boys know they should listen because they will be asked some questions after the reading. I think it has really improved their comprehension.

These tests are great. They help us better retain what we've learned of names of historic people and places. This curriculum makes history fun and interesting and memorable, especially if you use the accompanying workbooks as well. The whole family can learn world history as well as quite a bit of world geography. And the geography sticks in the brain longer than rote memorized geography because the world history stories help you connect meaning to the maps as well as these tests. They go along with the best World History curriculum available.

These tests/quizzes are a super way to check if your child is understanding what they have been reading. They really help the child to review what they have learned and recall it. My children have enjoyed taking these tests. They are not hard and discouraging, but more encouraging when children can answer the questions and recall facts. For the minimal price, they are a super addition to a fantastic history curriculum!

I purchased this for homeschool use to go with the text book. It has a good balance in the type of questions for each chapter. Because he is in 6th grade, we do the questions orally so I can judge his comprehension, and we can expand discussion in certain areas with critical thinking and logic. As a secular homeschooler, I am looking for material that is accurate and not slanted toward any particular religion, but teaches religion only with respect to how it has shaped various cultures.

Bought this so I could print tests quickly and find that I can't print legible pages at all even when I

change to landscape. I should have just bought the hard copy. I've tried to get assistance through your customer support but can't get through. Am so upset about this purchase. It stinks and I can't return it now! Wish I could talk to someone in technical support.

This series got my son interested in history and was informative for the adults too. We need more non-fiction that is accessible to children. I hope it will be the beginning of a genre.

Love the ease of this curriculum. I am able to let the children go at their own pace to read these books. Then I use these tests to check and see if they are "getting it" as well as doing our own timeline to reinforce. It's something simple to have to put in their portfolios at the end of the year!

We LOVE Story of the World! My 9 & 6 year old homeschooled children ask for History everyday. We are just 3 weeks into our school year and have completed 7 chapters of history. AND this is our second time through all 4 volumes.
