Customer Reviews

I used this book to go through the game successfully, but it wasn't entirely accurate, especially on the part where Booster and his buddies open the curtains- there's no specific one- it's totally random! Also it claims that "ALL SECRETS" are revealed, but I discovered several items that weren't listed at all. Because it was unauthorized, there was no way of checking whether all secrets really were revealed. Well they weren't. There was a VERY useful badge that I found that wasn't listed at all in

the book. The purpose of a guide is defeated if it ignores certain info. I'd recommend an official guide so there are guaranteed to be no mistakes.
