I came across this series by accident while browsing on [Amazon](#) and it looked interesting so I added it to my Wish List. My friend asked me what I wanted for my birthday and Vol. 1 was on the list. I have a ton of comics, graphic novels, and manga but I never finish them; however, when I started Vol. 1, I couldn't put it down! I enjoyed it so much that I bought Vol. 2 and plan to buy more! The characters are lovable and it's written with characters we understand and relate to (the popular kids, the jocks, the outcasts) from growing up. This isn't for children or maybe even teenagers (depending on the family) due to its sexual innuendos and suggestive dialog. I can't speak for everyone, but I think it's better suited for adults who understand that Yaoi Manga is Japanese homoerotic fan fiction. <https://en.wikipedia.org/wiki/Yaoi>

It's not yaoi, as there are no explicit sex scenes. But I knew that going in, so I'm not disappointed. Overall, it's a very good light read with interesting characters and funny plots. I would definitely recommend buying it.

These books get better as you go on! I don't want to give away too much in the book but it's just as amazing as the first one. I didn't mention this in my first review but there are short stories at the end

of each book. The two I've read so far are pretty great. So the books are definitely worth buying and reading.

Just as good as the first! The only downside about these are the little stories at the end of each book. I wish those pages were being used for more of the actual story. :(

Funny..worth reading...however the sadistic guy sometime tick me off!!!but they are a cute couple the second couple is cute too

HUGE yaoi /shounen ai fan, they're adorable and i can't wait till the next one in the series is finally out.

Best book ever I even LoVe the short stories. But still wanting on the book 9 vol. Yes yes :)

a cute sweet semi realistic shounen ai and possibly my favorite manga
