I highly recommend this book if you have trouble opening up and finding the words to express yourself to your spouse. It may seem common sense to some people, but they have some really good questions to ask yourself and your spouse to make for a better relationship.

A great, quick but full of impact read for anyone that wants to improve their communication skills in a relationship. I love the personal stories in here that are honest and shows why there often is a struggle in communication between two individuals. Marcus and Ashley breaks it down step-by-step in an easy-to-apply language that will help you move towards less conflict and more peace in your marriage or other relationship.

An absolute must read for couples! This is a very comprehensive, practical guide for communicating more effectively with your spouse. Most importantly, it gives very tangible ways to improve the way you communicate and to avoid misunderstandings. Marriage is hard work and dealing with your spouse in a patient and loving way can be difficult. This book is a great tool to start doing that effectively.

~Asked to review by authors~ This is a very good tool to help you communicate better with your spouse. It is very easy to understand for all types of people. It is very easy to put our partners on the backburner while life takes us for a ride. This will help open you both up for communication and for a much happier relationship.

I enjoyed reading this sweet and excellent resource from Marcus and Ashley. Lots of examples taken from their own experiences help illustrate even the thorniest of communication situations. I had to laugh out loud in a couple of spots, recognizing some familiar communication patterns. I like the tips at the end of each chapter that serve as reminders, and a shorthand reference.
I very much wanted a communication book with a Christian point of view and this book popped up in my search. Though it doesn't make reference to the Christianity perspective, I appreciate how your book can be used in both settings. Thank you so much for all of the helpful life experience advice.

This book is an excellent resource for anyone looking to better communicate with their spouse! Marcus and Ashley had a lot of challenges early on in their marriage, like so many other folks and they have done a great job of sharing how they overcame those issues, in order to help make things easier for others in a similar situation. You will learn a lot!

Very easy read and holds a lot of good information! It make seem very basic but it's little things we don't think make a difference in our relationships. I would recommend this book not just for married couples but also couples in a serious dating relationship. Why not start communicating better before marriage?
