Customer Reviews

I love Julia Cook’s books. I have many of them in my classroom. I just bought this one fire the end of the year. It touches on a real problem some children have in a humorous, non threatening way. It gives practical advice without being preachy. I always leave them out for students to read independently after we read and discussed it as a class. I love it when I see students who struggle with the issue choose to re read the books on their own.
